

PALA'S PHYSICAL ADDRESSING EDUCATION AND COORDINATION PROJECT *UPDATE*

In February of 2020, The Pala GIS and Fire Departments held two Community Meetings to discuss the importance of physical addressing when calling 9-1-1 in Pala, the effort to update all physical addressing to the 5-digit system and eliminate physical addressing conflicts. Future Community meetings were planned to educate, spread the word and build Community support. However, the rise of COVID-19 forced us to

postpone and ultimately cancel these meetings altogether, putting the project on hold.

With more people getting vaccinated and as things begin to return to normal, we are looking forward in the coming months to be able to resume our Community meetings and move the project forward. We thank you for your support and look forward to meeting with you once again!

Announcements with future meeting dates and times will soon follow.

If you have any questions, please feel free to contact Matthew Deveney, GIS Specialist at mdeveney@palatribe.com or call (760)891-3512.

Stay Tuned for Future Meeting Dates and Times!
